## OPEN SOURCE CONTRIBUTIONS

---

- **Layer5** Bangalore, India  
*Member/Contributor* *May 2022 - present*
  - **Meshery:** Meshery is the cloud native management plane offering lifecycle, configuration, and performance management of Kubernetes, service meshes, and your workloads. I contributed by improving the UI/UX of the application and making documentation changes.
- **Collabnix** Bangalore, India  
*Open Source Contributor — <https://community.collabnix.com>* *Jun 2022 - present*
  - **Writing and Blogging:** Collabnix is a platform for open source developers to share their knowledge and experience. I write and blog about open source projects and technologies.
- **Gaav/httpexpect** Bangalore, India  
*Open Source Contributor — <https://github.com/gavv/httpexpect>* *Jun 2022 - present*
  - **Contributing to httpexpect codebase:** httpexpect is a golang expectation library that you can use to test your response by making assertions on the response in an easy and readable way. Basically, httpexpect is a set of chainable builders for HTTP requests and assertions for HTTP responses and payload, on top of net/http and several utility packages.

## PROJECTS (CLICKABLE SUB-HEADING)

---

- **TripTalk:** TripTalk is a web application built with react with allows users to create travel blogs.
- **Reva Results:** A python and xpath web scraper which scrapes and formats the results site and displays the marks of a student

## TALKS AND PRESENTATION

---

- **Building a Docker Extension from scratch**

Microsoft Reactor,Bangalore

*Inner workings of Docker extensions and building a sample app*

*Slides:[Link](#) Hilights:[Link](#)*

## PROGRAMMING SKILLS

---

• **Languages:** C++, Python, Javascript, Go    **Technologies:** React, Node, Typescript , GCP , MongoDB, Aws
